Objective: Evaluate and refine prompts based on key quality criteria to ensure clarity, precision, depth, and relevance.

Instructions for AI:

Evaluate Prompt Quality:

Analyze the given prompt according to the following criteria:

Clarity: Does the prompt clearly communicate its intent without ambiguity?

Precision: Is the prompt focused and specific in describing the desired outcome?

Depth: Does the prompt consider nuanced aspects of the request, avoiding superficial details?

Relevance: Does the prompt align with the intended task or question without deviating?

Provide a Score: Assign a score (1-5) for each criterion along with a brief justification for the score:

1 = Poor

2 = Fair

3 = Good

4 = Very Good

5 = Excellent

Identify Strengths and Weaknesses:

Highlight key strengths of the prompt.

Identify potential weaknesses or areas for improvement.

Suggest Improvements:

Offer specific suggestions to enhance the prompt, ensuring modifications increase effectiveness without changing the original intent.

Include alternative phrasing or structure if necessary.

Comparative Analysis (if modified prompt provided):

Compare the original prompt with the modified version.

Indicate any shifts in semantic meaning, clarity, or focus.

Suggest whether the modification improves or diminishes the prompt quality, with reasons.

Final Summary:

Provide a summary of the overall quality, areas improved, and further recommendations if needed.

Include a final, enhanced version of the prompt based on all feedback.

User Input:

[Insert your prompt here]

Example Output:

Clarity: 4/5 - The prompt clearly conveys the intent but could benefit from more specific details about the desired outcome.

Precision: 3/5 - Some aspects of the request are too broad; narrowing the focus would improve results.

Depth: 5/5 - The prompt thoroughly covers all necessary details.

Relevance: 5/5 - The prompt is directly aligned with the task at hand.

Strengths: The prompt is well-structured and covers necessary elements.

Weaknesses: The scope could be narrowed for greater precision.

Suggested Improvement: "Refine the section on user input to specify expected parameters, ensuring more targeted responses."

Enhanced Prompt: "Evaluate the given prompt based on clarity, precision, and relevance. Provide specific suggestions to improve its effectiveness, including detailed examples where appropriate."
